Financial Matters-Tami

EDA/EDC Financials for May 2023

The EDA Profit and Loss reflects an operating net revenue position as of May 31, 2023 at \$575,286.00. The net revenue position is better than budget by \$486,000 due to vacancy savings and employer contributions, contingency, and PTAC subcenter expenses through May 2023. Income generators contributing to the budget surplus include grant administration and intergovernmental revenue. Revenue from VBOC was less than expected due to vacant positions. The EDA balance sheet reflects \$732,000 in Yellowstone County Funds. Tami did a draw down in June from this balance. Receivables are approximately \$426,000. Due to/Due From is \$65,000 for EDA and EDC. Fixed assets were changed due to depreciation expense. The other assets section remained similar to last month. The deferred outflow of resources is adjusted at end of fiscal year each year for the pension plan. Tami will continue to monitor EDA spending on final invoices generated for the fiscal year.

The EDC statement of operations reflects an operating net revenue position as of May 31, 2023 at \$27,000.00 while the EDC was projected to be at net operating expense position of \$10,000.00. Net operating revenue is better than expected by \$27,000.00 through the month of May. Budgeted expenses are slightly over budget. Variances include loan expenses, EDA reimbursement, and marketing. Overall, EDC expenses are managed well. Float income was higher than anticipated. Brandon answered the Executive Committee's questions regarding float income. Twice a year BSED receives a deposit from the Department of Treasury based on interest rates, underlying rate environment, and loan debenture that generates float income. The EDC balance sheet reflects a strong cash position. Accounts receivable is at \$82,250.

Motion: Ken Lutton to approve the EDA/EDC May 2023 financials as presented to the Board.

<u>Projected Year-End Budget Performance/Recommendations-Tami/Steve</u>

Tami shared that the projected year end budget performance was built in advance of speaking with the Executive Committee. Big Sky EDA's net revenue for operations is anticipated at approximately \$325,000 -\$328,000 with some additional spending in the last month of the fiscal year. Tami clarified that these projections are a moving target and some variances may still arise. The Board asked to receive the updated projection once the year-end numbers are finalized.

Steve shared recommendations with the Board to utilize the EDA balance. Steve shared that this is a one-time fund that will not be reinvested in the operating funds. Steve's recommendation is that BSED redistribute the surplus of funds to a building repair and replacement reserve (\$125,000), funds set aside for performance based merit award considerations, community development programs-parks, trails (\$60,00 pledge towards Coulson park), Air Service Matching Grant (\$25,000 total), and the remaining excess reinvested in the opportunity fund. Steve answered the Board's question regarding the projected year-end budget performance and recommendations.

Motion: Ken Lutton to approve the allocation of the surplus for the 2023 fiscal year as presented to the

Board.

Second: Debbie Desjarlais

Discussion: DJ Clark inquired as to the expenditures for professional fees compared to budget. Tami

and Steve explained this line item to the Board.

Steve has reached out to Associated Employers to help complete this work and refine these processes. Big Sky Economic Development Authority Financial Report for Board of Directors – September 14, 2023 Board Meeting For the Month ended July 31, 2023

The following financial statements for Big Sky EDA consist of the Statement of Operations, reporting actual revenues and expenses for the month of July 2023, and the Balance Sheet, reporting the assets, liabilities, and net assets as of July 31, 2023.

Statements of Operations

Big Sky EDA is in a net operating expense position of approximately \$79,000 at July 31, 2023. The expense position is within expectations since the primary revenue source for EDA is County Mill Levy Revenues that are not finalized by the County Commissioner's until September of the fiscal year and then subsequently funded in October. The Statement of Operations also shows negative Change in Net Assets of approximately \$100,000 with the inclusion of non-operating revenue and expense items (primarily depreciation expense).

Other operating revenue sources consisting of revenues related to the APEX Accelerator, SBDC, and VBOC programs and Rock31 are also within expectations.

Operating expenses appear reasonable and within expectations. Salaries/wages and employer contributions make up approximately 66% of the total operating expenses. EDA is still working to fill new and vacant positions, so we will see those expenses increasing in the coming months in line with the budget. The other major expenses in July are PTAC Subcenter costs and Professional Fees. The Professional Fees consist almost entirely of expenses related to EPA-Brownfields. The expenses for both the PTAC Subcenter costs and EPA-Brownfields professional fees will be entirely offset by revenues.

Non-operating income and expenses consist primarily of depreciation expense which amounted to approximately \$22,000.

Balance Sheet

Current assets at the end of July were approximately \$4,134,000, a decrease of about \$150,000 as compared to the previous month. The decrease is primarily attributed to the decrease in cash which relates to the timing of accounts receivable and accounts payable. The July 31, 2023 accounts receivable balance of \$381,692 is deemed fully collectible.

Due To/Due From EDC totaled \$57,861 at the end of July and consists of amounts due from EDC for the current month. The Tax levy receivable decreased by approximately \$10,000 as monies were collected and put into the Yellowstone County Funds cash account. Protested tax levy receivable and its related allowance for doubtful accounts was \$3,122. Note that the organization records an allowance of 100% of protested tax levy receivable to allow for potentially uncollectible protested tax levy.

Total fixed assets decreased approximately \$21,700 due to the recording of depreciation expense and related accumulated depreciation. There were no new fixed asset additions nor fixed asset dispositions in July.

Current liabilities at the end of July were approximately \$425,000, a decrease of approximately \$72,000 as compared to the previous month. Accrued expenses are primarily for salary/benefits accruals which amount to approximately \$65,400. Also included in this line are obligations for Space to Place (\$20,000) and an accrual for a professional videographer contract (\$21,032). Compensated absences total approximately \$167,000 as of July 31, 2023.

Long Term liabilities are approximately \$839,000. This consists primarily of deferred inflow of resources and pension liability, both related to Big Sky EDA's obligation to the Public Employee Retirement System. These amounts are adjusted at the end of each fiscal year in accordance with governmental accounting requirements for recognizing long-term obligations for defined pension benefits, so the amounts will remain unchanged until the end of FY24.

Big Sky Economic Development Corporation Financial Report for Board of Directors – September 14, 2023 Board Meeting For the Month ended July 31, 2023

The following financial statements for Big Sky EDC consist of the Statement of Operations, reporting actual revenues and expenses for the month of July 2023, and the Balance Sheet, reporting the assets, liabilities, and net assets as of July 31, 2023.

Statement of Operations

Big Sky EDC is in a net operating revenue position of approximately \$22,000 on July 31, 2023. The revenue position is reasonable since quarterly invoicing for member investor pledges occurred this month and all other revenue sources were within expectations. The Statement of Operations also shows a positive Change in Net Assets of approximately \$22,000 with the inclusion of non-operating revenue items for bank interest income.

Operating expenses appear reasonable and within expectations. The EDA Reimbursement is the primary expense for EDC and amounts to approximately \$58,108. This expense consists of the amounts reimbursed to EDA by EDC for salaries/wages and employer contributions, building operations and maintenance, telecommunications, and liability insurance.

Non-operating income and expense reported in July consists of bank interest income.

Balance Sheet

Current assets at the end of July were approximately \$1,805,000, a decrease of about \$46,000 as compared to the previous month. Cash used in operations decreased approximately \$78,000 and accounts receivable increased approximately \$20,000. Member investor pledges of \$76,691 are deemed collectible but will be evaluated on a quarterly basis for potential write-offs.

Other assets consist of Big Sky Finance loan portfolios. The portfolios are reported in the balance sheet with the current portion included in other current assets and the balance extending beyond the fiscal year reported as other assets. The total Federal EDA RLF portfolio (current and non-current) was \$1,100,888, total RLF portfolio was \$198,939, the total Stabilization Loan portfolio was \$5,289, and the total SSBCI portfolio was \$795,604.

Accounts payable totaled approximately \$94,000 at the end of July, a decrease of about \$52,000 from previous month. Due to/Due from EDA totaled \$57,861 and represents the amount owed to EDA from EDC for July reimbursements.

During the FY23 year-end reconciliation procedures, we became aware that the guidance received in February 2023 to restate the Balance Sheet for Big Sky EDC to include a line item in the equity section to report the Federal EDA RLF funds as temporarily restricted net assets rather than non-operating income and create a prior period adjustment for the amounts reported as income in FY22 was not correct. We have, therefore, adjusted the balance sheet to remove the temporarily restricted net assets and prior period adjustment. As such, future receipts of Federal EDA RLF funds will be reported as non-operating income at the time the funds are received and will be reflected in the Statement of Operations.

Steve Arveshoug, Executive Director Big Sky Economic Development Authority 201 N Broadway Billings, MT 59101 402 N. Broadway Billings, Montana 59101 406.245.5136

Dear Steve:

You have requested that we audit the financial statements of Big Sky Economic Development Authority (the District), which comprise the statement of net position as of June 30, 2023, and the related statements of revenues, expenses, and changes in net position and cash flows for the year then ended, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In addition, we will audit the District's compliance over major federal award programs for the period ended June 30, 2023. We are pleased to confirm our acceptance and our understanding of this audit engagement by means of this letter. Our audits will be conducted with the objectives of our expressing an opinion on each opinion unit and an opinion on compliance regarding the District's major federal award programs. The objectives of our audit of the financial statements are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America (GAAS) and in accordance with Government Auditing Standards will always detect a material misstatement when it exists. Misstatements, including omissions, can arise from fraud or error and are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

The objectives of our compliance audit are to obtain sufficient appropriate audit evidence to form an opinion and report at the level specified in the governmental audit requirement about whether the District complied in all material respects with the applicable compliance requirements and identify audit and reporting requirements specified in the governmental audit requirement that are supplementary to GAAS and *Government Auditing Standards*, if any, and perform procedures to address those requirements.

Accounting principles generally accepted in the United States of America (U.S. GAAP) require that management's discussion and analysis be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

As part of our engagement, we will apply certain limited procedures to the required supplementary information (RSI) in accordance with GAAS. These limited procedures will consist primarily of inquiries of management regarding their methods of measurement and presentation, and comparing the information for consistency with management's responses to our inquiries. We will not express an opinion or provide any form of assurance on the RSI. The following RSI is required by U.S. GAAP. This RSI will be subjected to certain limited procedures but will not be audited:

- Schedule of proportionate share of net pension liability
- Schedule of contributions

Supplementary information other than RSI will accompany the District's basic financial statements. We will subject the following supplementary information to the auditing procedures applied in our audit of the basic financial statements and certain additional procedures, including comparing and reconciling the supplementary information to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and additional procedures in accordance with GAAS. We intend to provide an opinion on the following supplementary information in relation to the financial statements as a whole:

Management's discussion and analysis

Schedule of Expenditures of Federal Awards

We will subject the schedule of expenditures of federal awards to the auditing procedures applied in our audit of the basic financial statements and certain additional procedures, including comparing and reconciling the schedule to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and additional procedures in accordance with GAAS. We intend to provide an opinion on whether the schedule of expenditures of federal awards is presented fairly in all material respects in relation to the financial statements as a whole.

Data Collection Form

Prior to the completion of our engagement, we will complete the sections of the Data Collection Form that are our responsibility. The form will summarize our audit findings, amounts and conclusions. It is management's responsibility to submit a reporting package including financial statements, schedule of expenditure of federal awards, summary schedule of prior audit findings and corrective action plan along with the Data Collection Form to the federal audit clearinghouse.

The financial reporting package must be text searchable, unencrypted, and unlocked. Otherwise, the reporting package will not be accepted by the federal audit clearinghouse. We will assist you in the electronic submission and certification. You may request from us copies of our report for you to include with the reporting package submitted to pass-through entities.

The Data Collection Form is required to be submitted within the *earlier* of 30 days after receipt of our auditors' reports or nine months after the end of the audit period, unless specifically waived by a federal cognizant or oversight agency for audits. Data Collection Forms submitted untimely are one of the factors in assessing programs at a higher risk.

Audit of the Financial Statements

We will conduct our audits in accordance with GAAS, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America; the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). As part of an audit of financial statements in accordance with GAAS and in accordance with *Government Auditing Standards*, and/or any state or regulatory audit requirements, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design
 audit procedures that are appropriate in the circumstances, but not for the purpose
 of expressing an opinion on the effectiveness of the District's internal control.
 However, we will communicate to you in writing concerning any significant
 deficiencies or material weaknesses in internal control relevant to the audit of the
 financial statements that we have identified during the audit.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Conclude, based on the audit evidence obtained, whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

Because of the inherent limitations of an audit, together with the inherent limitations of internal control, an unavoidable risk that some material misstatements or noncompliance may not be detected exists, even though the audit is properly planned and performed in accordance with GAAS and *Government Auditing Standards* of the Comptroller General of the United States of America. Please note that the determination of abuse is subjective and *Government Auditing Standards* does not require auditors to detect abuse.

Our responsibility as auditors is limited to the period covered by our audit and does not extend to any other periods.

We will issue a written report upon completion of our audit of the District's basic financial statements. Our report will be addressed to those charged with governance of the District. Circumstances may arise in which our report may differ from its expected form and content based on the results of our audit. Depending on the nature of these circumstances, it may be necessary for us to modify our opinions, add an emphasis-of-matter or other-matter paragraph(s) to our auditors' report, or if necessary, withdraw from the engagement. If our opinions on the basic financial statements are other than unmodified, we will discuss the reasons with you in advance. If, for any reason, we are unable to complete the audit or are unable to form or have not formed opinions, we may decline to express opinions or to issue a report as a result of this engagement.

In accordance with the requirements of *Government Auditing Standards*, we will also issue a written report describing the scope of our testing over internal control over financial reporting and over compliance with laws, regulations, and provisions of grants and contracts, including the results of that testing. However, providing an opinion on internal control and compliance over financial reporting will not be an objective of the audit and, therefore, no such opinion will be expressed.

Audit of Major Program Compliance

Our audit of the District's major federal award program(s) compliance will be conducted in accordance with the requirements of the Single Audit Act, as amended; and the Uniform Guidance, and will include tests of accounting records, a determination of major programs in accordance with the Uniform Guidance and other procedures we consider necessary to enable us to express such an opinion on major federal award program compliance and to render the required reports. We cannot provide assurance that an unmodified opinion on compliance will be expressed. Circumstances may arise in which it is necessary for us to modify our opinion or withdraw from the engagement.

The Uniform Guidance requires that we also plan and perform the audit to obtain reasonable assurance about whether material noncompliance with applicable laws and regulations, the provisions of contracts and grant agreements applicable to major federal award programs, and the applicable compliance requirements occurred, whether due to fraud or error, and express an opinion on the District's compliance based on the audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of the federal programs as a whole.

As part of a compliance audit in accordance with GAAS and in accordance with Government Auditing Standards we exercise professional judgment and maintain professional skepticism throughout the audit. We also identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks.

Our procedures will consist of determining major federal programs and, performing the applicable procedures described in the U.S. Office of Management and Budget *OMB Compliance Supplement* for the types of compliance requirements that could have a direct and material effect on each of the District's major programs, and performing such other procedures as we considers necessary in the circumstances. The purpose of those procedures will be to express an opinion on the District's compliance with requirements applicable to each of its major programs in our report on compliance issued pursuant to the Uniform Guidance.

Also, as required by the Uniform Guidance, we will obtain an understanding of the District's internal control over compliance relevant to the audit in order to design and perform tests of controls to evaluate the effectiveness of the design and operation of controls that we consider relevant to preventing or detecting material noncompliance with compliance requirements applicable to each of the District's major federal award programs. Our tests will be less in scope than would be necessary to render an opinion on these controls and, accordingly, no opinion will be expressed in our report. However, we will communicate to you, regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we have identified during the audit.

We will issue a report on compliance that will include an opinion or disclaimer of opinion regarding the District's major federal award programs, and a report on internal controls over compliance that will report any significant deficiencies and material weaknesses identified; however, such report will not express an opinion on internal control.

Management's Responsibilities

Our audit will be conducted on the basis that management and, when appropriate, those charged with governance acknowledge and understand that they have responsibility:

- For the preparation and fair presentation of the financial statements in accordance with U.S. GAAP;

Board of Directors Big Sky Economic Development Authority 201 N Broadway Billings, MT 59101

402 N. Broadway Billings, Montana 59101 406.245.5136

Dear Board of Directors:

This letter is provided in connection with our engagement to audit the financial statements and to audit compliance over major federal award programs of Big Sky Economic Development Authority (the Organization) as of and for the year ended June 30, 2023. Professional standards require that we communicate to you certain items relevant to our responsibilities with regard to the financial statement audit and the planned scope and timing of our audit, including significant risks we have identified.

Our Responsibilities

As stated in our engagement letter dated July 31, 2023, we are responsible for conducting our audit in accordance with auditing standards generally accepted in the United States of America (GAAS); Government Auditing Standards of the Comptroller General of the United States of America; the requirements of the Single Audit Act, as amended; and the provisions of the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (the Uniform Guidance) requirements for the purpose of forming and expressing an opinion on the Organization's financial statements and on major federal award program compliance. Our audits do not relieve you or management of your respective responsibilities.

Our responsibility relating to the schedule of expenditures of federal awards is to evaluate its presentation for the purpose of forming and expressing an opinion as to whether it is presented fairly in all material respects in relation to the financial statements as a whole.

Planned Scope of the Audit

Our audits will include examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; therefore, our audit will involve judgment about the number of transactions to be examined and the areas to be tested.

Our audit procedures will also include determining major federal programs and performing the applicable procedures described in the U.S. Office of Management and Budget *OMB Compliance Supplement* for the types of compliance requirements that could have a direct and material effect on each of the Organization's major programs.

Because of the inherent limitations of an audit, together with the inherent limitations of internal control, an unavoidable risk exists that some material misstatements or material noncompliance may not be detected exists, even though the audit is properly planned and performed in accordance with GAAS; *Government Auditing Standards* of the Comptroller General of the United States of America; the requirements of the Single Audit Act, as amended; and the provisions of the Uniform Guidance.

13

Board of Directors Big Sky Economic Development Authority July 31, 2023 Page 2

Our audit is designed to provide reasonable, but not absolute, assurance about whether the financial statements as a whole are free of material misstatement, whether due to error, fraudulent financial reporting, misappropriation of assets, or violations of laws or governmental regulations. Reasonable assurance is a high level of assurance but is not absolute assurance, and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

Our audit will include obtaining an understanding of the Organization and its environment, including its internal control, sufficient to assess the risks of material misstatement of the financial statements and the risk of material noncompliance with major federal award programs, and as a basis for designing the nature, timing, and extent of further audit procedures. However, at the conclusion of our audit, we will communicate to you significant matters that are relevant to your responsibilities in overseeing the financial reporting process, including any material weaknesses, significant deficiencies, and violation of laws or regulations that come to our attention. We will also communicate to you:

- Our views relating to qualitative aspects of the Organization's significant accounting practices, including accounting policies, accounting estimates, and financial statement disclosures;
- Significant difficulties, if any, encountered during the audit;
- Disagreements with management, if any, encountered during the audit;
- Significant unusual transactions, if any;
- The potential effects of uncorrected misstatements on future-period financial statements; and
- Other significant matters that are relevant to your responsibilities in overseeing the financial reporting process.

Although we are currently in the very early stages of our audit, GAAS states that certain risks are significant to all entities. These include management override of internal controls and improper revenue recognition. Additionally, GAAS requires us to identify any other significant risks. Based on our past and current knowledge of the Organization and the materiality of certain accounts, we have also identified the related party transactions between the Organization and Big Sky Economic Development Corporation, Inc. to be a significant risk

We expect to begin our audit on approximately August 7, 2023 and to issue our report no later than November 30, 2023.

In order to protect our firm from any unauthorized reliance or claims, you further agree that the advice, opinions and reports issued by our firm shall not be distributed, made available, circulated or quoted to or used by any Third Party without our prior written consent. However, nothing in this paragraph shall be construed as limiting or restricting disclosure of a transaction or any significant tax feature thereof for purposes of §6110, §6111, and §6112 of the Internal Revenue Code, as amended from time to time. This paragraph shall not apply to the following services: Audits of Financial Statements, Reviews of Financial Statements, Compilations of Financial Statements, Services under the U.S. Statements on Standards for Attestation Engagements, including but not limited to, applying Agreed Upon Procedures or Compilations of Prospective Financial Information, or any other service for which professional standards or law require KCoe Isom to be "independent."

If you have foreign owners, accounts, or activities, you may be required to file supplemental forms that carry substantial failure-to-file penalties if not timely filed. We emphasize the importance of notifying us if you are a party to international transactions. If we determine you must file additional forms with your federal and/or state tax return to report these activities, we may charge additional fees for this service. We will discuss this matter with you before proceeding. The terms of this Agreement shall apply to any current-year foreign asset reporting. If reporting for multiple years is necessary, a

separate engagement letter will be provided. If you have an interest in or signature authority for a foreign financial account, it is your responsibility to provide us with this information so we can determine if separate reporting is required. If we determine separate reporting of foreign financial accounts is required, we may charge additional fees for this service. We will discuss this matter with you before proceeding. The terms of this Agreement shall apply to any current-year foreign financial account reporting. If reporting for multiple years is necessary, a separate engagement letter will be provided.

- 11. E-mail Communication. In connection with this Agreement, we may communicate with you or others via e-mail transmission. As e-mails can be intercepted and read, disclosed, or otherwise used or communicated by a third party, or may not be delivered to each of the parties to whom they are directed and only such parties, we cannot guarantee or warrant that e-mails from us and other personnel will be properly delivered and read only by the addressee. Therefore, the parties to this Agreement specifically disclaim and waive any liability or responsibility whatsoever for intercepted, disclosed or communicated e-mail transmissions, or with respect to the unauthorized use or failed delivery of e-mails transmitted in connection with the performance of this Agreement. All parties to this Agreement also specifically disclaim and waive, and expressly acknowledge and agree, that they shall have no liability or responsibility whatsoever for any loss or damage to any person or entity, resulting in whole or in part, from the use of e-mail transmissions, including, without limitation, any consequential, incidental, direct or indirect or special damages, such as loss of sales or anticipated profits or disclosure or communication of confidential or proprietary information.
- 12. Independent Contractor. Our firm and you acknowledge that the relationship between the parties to this Agreement is exclusively that of an independent contractor and that our firm's obligations to you are exclusively contractual in nature. This Agreement does not create an agency, employment, partnership, joint venture, trust, or other fiduciary relationship between the parties. Neither party shall have the right to bind the other to any Third Party nor otherwise act in any way as a representative or agent of the other, except as otherwise agreed in writing between the parties.
- 13. <u>Management Responsibilities.</u> You agree to accept responsibility for the results of services being provided and agree to perform the following functions in connection with this Agreement:
 - a) Make all management decisions and perform all management functions.
 - b) Designate a competent individual to oversee the services.
 - c) Evaluate the adequacy and results of the services performed.
 - d) Establish and maintain internal controls, including monitoring ongoing activities.
- 14. <u>Assignment.</u> Neither party will assign this Agreement, in whole or in part, without the prior written consent of the other party, which written consent will not be unreasonably withheld. However, we reserve the right to assign all or any of its rights, title, and interests in and to this Agreement to any of its subsidiaries or affiliates, or to any of its Insurers, in accordance with any policies of insurance maintained by our firm, except for agreements to provide attest services entered into by KCoe Isom which shall not be assigned to Pinion or any of Pinion's

subsidiaries or affiliates.

15. <u>Dispute Resolution Procedure.</u> If any dispute, controversy or claim of any kind arises in connection with the performance or breach of this Agreement, either party may, upon written notice to the other party, request mediation. The parties shall employ the mediation rules and procedures of the American Arbitration Association ("AAA") in effect at the time of the mediation and shall conclude the mediation within sixty (60) days from receipt of the written notice unless extended by mutual consent.

If mediation fails, the dispute, controversy, or claim shall be settled by binding arbitration. The proceeding shall be governed by the law and provisions of the state in which the proceeding is to take place and conducted in accordance with the Rules for Professional Accounting and Related Disputes of the American Arbitration Association ("The AAA Rules") in effect at the time of the arbitration.

The parties acknowledge that this Agreement evidences a transaction involving interstate commerce. Notwithstanding the provision in the preceding paragraph with respect to applicable substantive law, any arbitration conducted pursuant to the terms of this Agreement shall be governed by the Federal Arbitration Act (9 U.S.C., Secs. 1-16). The award issued by the arbitration panel may be confirmed in a judgment by any federal or state court of competent jurisdiction.

Unless the arbitration is being conducted pursuant to the AAA's expedited procedures, such arbitration shall be conducted before a panel of three neutral arbitrators, selected pursuant to The AAA Rules, at least one of whom shall be a Certified Public Accountant. The arbitration panel shall have no authority to award either party non-monetary or equitable relief, and any monetary award shall not include punitive damages.

Any proceeding under this paragraph 15 shall take place in the city in which our firm's office providing the relevant services exists unless the parties agree to a different location. Each party shall pay their own costs and shall share equally the fees and expenses of the mediator and/or the AAA and the arbitrators. The confidentiality provisions applicable to mediation shall also apply to arbitration.

- 16. <u>Indemnification</u>. You agree to indemnify, defend, and hold harmless our firm and any of its partners, principals, officers, directors, members, employees, agents or assigns with respect to any and all claims made by third parties arising from this engagement, regardless of the nature of the claim, and including the negligence of any party, excepting claims arising from the gross negligence or intentional acts of our firm.
- 17. <u>Limitation of Liability</u>. Our firm's liability for all claims, damages, and costs arising from this engagement is limited to the total amount of fees paid by you to our firm for services rendered under this Agreement. Notwithstanding anything to the contrary in this Agreement, our firm shall not be liable for any LOST PROFITS, INDIRECT, SPECIAL, INCIDENTAL, PUNITIVE OR CONSEQUENTIAL DAMAGES of any nature.
- 18. Governing Law and Severability. This Agreement shall be governed by, and construed in accordance with, the laws in the State in which our firm's office providing the relevant services

exists (without giving effect to the choice of law principles thereof). If any provision of this Agreement is found by a court of competent jurisdiction to be unenforceable, such provision shall not affect the other provisions, but such unenforceable provision shall be deemed modified to the extent necessary to render it enforceable, preserving to the fullest extent permissible the intent of the parties set forth in this Agreement. The parties acknowledge and agree that this Agreement allocates risk between them as authorized by any applicable law and that the amount of the fees charged for the services reflects this allocation of risk and other limitations of liability contained in this Agreement. If any remedy hereunder is determined to have failed of its essential purpose, all limitations of liability and exclusion of damages set forth in this Agreement will remain in full force and effect.

19. Entire Agreement. The Agreement and any separate Engagement Letter related to the subject matter herein ("Engagement Letter"), set forth the entire agreement between the parties with respect to the services described in the Agreement, superseding all prior agreements, negotiations or understandings, whether oral or written, with respect to such subject matter. Steve Arveschoug, Executive Director Big Sky Economic Development Corporation, Inc. 201 N Broadway Billings, MT 59101 402 N. Broadway 4th Floor Billings, MT 59101 (406) 245-5136

Dear Mr. Arveschoug:

You have requested that we audit the basic financial statements of Big Sky Economic Development Corporation, Inc. (the Organization), which comprise the statement of financial position as of June 30, 2023, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements. We are pleased to confirm our acceptance and our understanding of this audit engagement by means of this letter.

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America (U.S. GAAS) will always detect a material misstatement when it exists. Misstatements, including omissions, can arise from fraud or error and are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

Auditor Responsibilities

We will conduct our audit in accordance with U.S. GAAS. As part of an audit in accordance with GAAS, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design
 audit procedures that are appropriate in the circumstances, but not for the purpose of
 expressing an opinion on the effectiveness of the entity's internal control.4 However,
 we will communicate to you in writing concerning any significant deficiencies or
 material weaknesses in internal control relevant to the audit of the financial statements
 that we have identified during the audit.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Conclude, based on the audit evidence obtained, whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Organization's ability to continue as a going concern for a reasonable period of time.

Because of the inherent limitations of an audit, together with the inherent limitations of internal control, an unavoidable risk that some material misstatements may not be detected exists, even though the audit is properly planned and performed in accordance with U.S. GAAS.

Our responsibility as auditors is limited to the period covered by our audit and does not extend to any other periods.

As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we will perform tests of the Organization's compliance with certain provisions of laws, regulations, contracts, and grants that could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions is not an objective of our audit, and accordingly, we will not express such an opinion.

Management Responsibilities

Our audit will be conducted on the basis that management and, when appropriate, those charged with governance acknowledge and understand that they have responsibility:

- 1. For the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America;
- For the design, implementation, and maintenance of internal control relevant to the
 preparation and fair presentation of financial statements that are free from material
 misstatement, whether due to error, fraudulent financial reporting,
 misappropriation of assets, or violations of laws, governmental regulations, grant
 agreements, or contractual agreements; and

3. To provide us with:

- Access to all information of which management is aware that is relevant to the preparation and fair presentation of the financial statements, including the disclosures such as records, documentation, and other matters;
- b. Additional information that we may request from management for the purpose of the audit; and

- Unrestricted access to persons within the Organization and others from whom we determine it necessary to obtain audit evidence;
- 4. For including the auditors' report in any document containing financial statements that indicates that such financial statements have been audited by us;
- 5. For identifying and ensuring that the Organization complies with the laws and regulations applicable to its activities;
- 6. For adjusting the financial statements to correct material misstatements and confirming to us in the management representation letter that the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the current-year period(s) under audit are immaterial, both individually and in the aggregate, to the financial statements as a whole; and
- 7. For acceptance of nonattest services, including identifying the proper party to oversee nonattest work;
- For maintaining adequate records, selecting and applying accounting principles, and safeguarding assets;
- For informing us of any known or suspected fraud affecting the entity involving management, employees with significant role in internal control and others where fraud could have a material effect on the financials; and
- 10. For the accuracy and completeness of all information provided.

As part of our audit process, we will request from management and, when appropriate, those charged with governance, written confirmation concerning representations made to us in connection with the audit.

Nonattest Services

We will not assume management responsibilities on behalf of the Organization. However, we will provide advice and recommendations to assist management of the Organization in performing its responsibilities. Professional standards prohibit us from being the sole host and/or the sole storage for your financial and nonfinancial data. As such, it is your responsibility to maintain your original data and records and we cannot be responsible to maintain such original information. By signing this engagement letter, you affirm that you have all the data and records required to make your books and records complete.

With respect to any nonattest services we perform, the Organization's management is responsible for: (a) making all management decisions and performing all management functions; (b) assigning a competent individual to oversee the services; (c) evaluating the adequacy of the services performed; (d) evaluating and accepting responsibility for the results of the services performed; and (e) establishing and maintaining internal controls, including monitoring ongoing activities.

Our responsibilities and limitations with respect to the nonattest services include: (a) performing the services in accordance with the applicable professional standards; (b) performing only nonattest services that we are engaged to perform; and (c) reserving the right to refuse to do any procedure or take any action that could be construed as making management decisions or assuming management responsibilities, including determining account coding and approving journal entries. We will advise the Organization regarding the tax positions taken in the preparation of the tax return, but the Organization must make all decisions with regard to those matters.

Reporting

We will issue a written report upon completion of our audit of the Organization's basic financial statements. Our report will be addressed to those charged with governance of the Organization. Circumstances may arise in which our report may differ from its expected form and content based on the results of our audit. Depending on the nature of these circumstances, it may be necessary for us to modify our opinion, add an emphasis-of-matter or other-matter paragraph(s) to our auditor's report, or if necessary, or withdraw from the engagement.

Dear Board of Directors:

This letter is provided in connection with our engagement to audit the financial statements of Big Sky Economic Development Corporation, Inc. (the Organization) as of and for the year ended June 30, 2023. Professional standards require that we communicate to you certain items relevant to our responsibilities with regard to the financial statement audit and the planned scope and timing of our audit, including significant risks we have identified.

Our Responsibilities

As stated in our engagement letter dated July 31, 2023, we are responsible for conducting our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) for the purpose of forming and expressing an opinion on the Organization's financial statements. Our audit does not relieve you or management of your respective responsibilities.

Planned Scope of the Audit

Our audit will include examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; therefore, our audit will involve judgment about the number of transactions to be examined and the areas to be tested.

Our audit is designed to provide reasonable, but not absolute, assurance about whether the financial statements as a whole are free of material misstatement, whether due to error, fraudulent financial reporting, misappropriation of assets, or violations of laws or governmental regulations. Reasonable assurance is a high level of assurance but is not absolute assurance, and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

Our audit will include obtaining an understanding of the Organization and its environment, including its internal control, sufficient to assess the risks of material misstatement of the financial statements and as a basis for designing the nature, timing, and extent of further audit procedures, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control over financial reporting. However, at the conclusion of our audit, we will communicate to you any material weaknesses or significant deficiencies we identified. We will also communicate to you:

Any violation of laws or regulations that come to our attention;

kcoe.com 31

Board of Directors Big Sky Economic Development Corporation, Inc. July 31, 2023 Page 2

- Our views relating to qualitative aspects of the Organization's significant accounting practices, including accounting policies, accounting estimates, and financial statement disclosures;
- Significant difficulties, if any, encountered during the audit;
- Disagreements with management, if any, encountered during the audit;
- Significant unusual transactions, if any;
- The potential effects of uncorrected misstatements on future-period financial statements; and
- Other significant matters that are relevant to your responsibilities in overseeing the financial reporting process.

Although we are currently in the very early stages of our audit, GAAS states that certain risks are significant to all entities. These include management override of internal controls and improper revenue recognition. Additionally, GAAS requires us to identify any other significant risks. Based on our past and current knowledge of the Organization and the materiality of certain accounts, we have also identified the related-party transactions between the Organization and Big Sky Economic Development Authority to be a significant risk.

We expect to begin our audit on approximately August 7, 2023 and to issue our report no later than November 30, 2023.

Closing

This information is intended solely for the use of those charged with governance of the Organization, and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

EDA · EDC CREATING MONTANA BUSINESS OPPORTUNITIES

ATTACHMENT H

September 2023 Executive Director's Report and Program Updates to the Board of Directors

Strategic Priorities (FY 2023-24)

Strategic Objectives (updates in *blue/italic*)

1. Build out the Billings entrepreneurship ecosystem to support new, innovative, diverse business startups (Leads: Business Advising & Lending Programs)

Strategies

- a. Complete the Rock31/BSED facility development project to its full vision—We have completed our one-year warranty walkthrough and only found a few items to address. We also found a handful of items to upgrade (i.e., keypad entry for both doors in the lower level, and a window in the SBDC door). We had \$16,000 remaining in our building fund to cover these up-grade items. Per the Board's direction we have created a Building Repair and Replacement Fund, transferring \$125,000 from our net operating income to this new account. Important to have these dollars as we move out of our initial warranty period. In all, the building is meeting and exceeding expectations in so many ways.
- b. Execute the Rock31 program plan, build Rock31membership and roll out acceleration programming— Our search process for our Rock31 Director of Entrepreneurship continues. We have struggled a bit finding just the right fit. To keep things moving we are now going to launch the Rock31 Community Coordinator search as well. In the meantime, Nik continues to fill in at the front desk, serving the needs of the Rock31 members. He is doing a great job. Kayla will continue as the interim director of Rock31, likely for the next 6 to 8 weeks. Great team effort.
- c. Build awareness of all business advising and lending programs and tools—Our partnership with the Native American Development Corporation to serve their client base through our existing Rock31 and Small Business Development Center programs has been awarded the grant from the Federal Economic Development Administration (EDA). We are now working on a cooperative agreement with NADC. These funds will support an expanded role for the Rock31 Community Coordinator position, now onboarding new members referred to us by the NADC. The grant provides \$110,000 to \$150,000 per year for this work. Morte details to follow.

2. Act Now to redevelop downtown, building essential workforce housing and connection/complementing medical corridor investment (Leads: Executive Director, Community Development, and Recruitment)

Strategies

- a. Partner to create a Development Action Fund (pool of tools and resources) to attract and incent downtown housing/mix-use development— The Downtown Housing Working Group work continues. Efforts now are focused on encouraging the right development opportunities for the Gazette and Ryan properties. We want to be able cooperate with both property owners, and if needed use TIF and Opportunity Fund dollars to make key projects a reality—with a focus on housing and mix-use development. We will be meeting with Lee Enterprises (owner of the Gazette) in September to encourage partnership toward a significant development at their site. As a part of this work, we are developing conceptual site plans to stimulate some creative/reality thinking about these sites. I will update the Board following this key meeting.
- b. Develop a marketing/outreach strategy and solicit developer proposals—no new info to share.
- c. Update the 2017 downtown housing study to guide decision making for City/BSED and private developers—*COMPLETED*.
- d. Seek a more development-friendly approach from the City—No progress in this area, yet.
- 3. Invest in the quality of our community through a comprehensive parks and trials development and funding plan (Leads: Community Development)

Strategies

- a. Facilitate working groups that feed the policy-making process—The parks/trails/rec bond issue campaign kicked off today. There is a need for \$112,000 more to fully fund the campaign. The capital/construction fund raising is nearing the \$3.0 million mark. Leadership for both the bond issue campaign and the construction project fundraising will attend our September Board meeting.
- b. Provide research and data that articulates the value in parks and trials development—The community development/recruitment team will be working with the City to push out educational information regarding the value of investment in parks/tails/recreation. That effort will start asap.
- c. Build public awareness regarding parks and trials investment—Significant work ahead.
- d. Complete \$1.0 million in phase-one Coulson Park development— *To date we have raised, including BSED contributions, about \$800,000 toward initial Coulson Park development.*
- 4. Grow, retain and attract a qualified workforce (Leads: BillingsWorks)

Strategies (see BillingsWorks section for updates)—an exciting announcement will come soon regarding a grant award to add even more tools to support career pathways and talent attraction. Marcell will have the details soon.

- a. Curate & share quarterly job market/industry data reports and solutions for employers to help them make data informed decisions related to talent attraction and retention
- b. Collaborate with Think Billings to advance talent attraction and retention resource with targeted marketing campaigns that align business recruitment efforts and talent attraction efforts

c. Sustain partnerships and focus on education and industry alignment and collaboration through participation in STEM Yellowstone, internships, Yellowstone County Summer Jobs Program, the Summer Intern Leadership Institute, and continued convening (quarterly) of the BillingsWorks Steering Committee

Program Updates

Community Development Program Report

Tax Abatements:

We met with the City Administrator on the tax abatement programs to consider adjustments to the program. We are currently preparing a summary document containing types of abatements, MCA code and city/county resolutions, requirements, goals, and draft evaluation matrix. The City Administrator will provide a presentation on the tax abatement program at the October 16th City Council work session.

Brownfields Program:

Our Environmental Consultants continue to work on approval for our preliminary documents and plans through the EPA, including our Quality Assurance Project Plan and our Community Outreach Plan. We have completed two Phase I Environmental Site Assessments (ESA) and two additional Phase I ESAs in the works. We also have two Phase II ESAs pending approval by the EPA.

We have completed and submitted our workplan for our new Brownfield Revolving Loan Fund grant and are awaiting approval. We will work on all the preliminary procedures and documents for that grant once we receive approval for our workplan. Full start-up of that program may take several months.

On August 29th, BSED hosted Janet McCabe, Deputy Administrator of the Environmental Protection Agency, and KC Becker EPA Region 8 Administrator, including a downtown walking tour and a roundtable discussion of development issues in Billings and how Brownfield and other federal resources can help.

Coulson Park:

We have requested additional information on progress at Coulson Park from Billings Parks and Recreation. We rescheduled a meeting with Scheels and the Parks Department to provide an update on the status of construction to comply with the Scheels grant award.

Downtown Housing:

We continue to work with local housing projects and housing organizations with a focus on downtown housing.

Lockwood Industrial Park Targeted Economic Development District (TEDD):

The TEDD Advisory Board continues to work with the County, Lockwood Water and Sewer District, KLJ, and Morrison Maierle to fund and install water and sewer infrastructure at the Johnson Lane Interchange. KLJ has applied to the Montana Coal Board for funds for this project and will soon also apply to the US Economic Development Agency. KLJ and Morrison Maierle continue to coordinate engineering of the system with the Montana Dept of Transportation. Construction is scheduled for 2024.

Space2Place:

Three Space2Place projects have been completed – the large mural in the alley behind Edward Jones and Inkcredible downtown, Canvas Creek Team Building's Collaborative Art Project in the same alley, and Tyson Middle's large mural on the north wall of the YMCA. The DBA's Illuminate 29th St project is nearing completion. The other projects are in various stages of progress with completion required by the end of September.

Parks and Trails:

BSED will continue to assist the City of Billings and our community partners in their educational efforts surrounding the Parks and Trails bond ballot measure. City voters will decide this November whether to fund approximately \$142 million in parks, recreation, and trails projects, including the South Billings Recreation center, Castlerock Park, South Park pool, and several other parks and trails projects.

Department of Transportation Thriving Communities Grant:

BSED, NADC, 7th Gen met to look at the community needs assessment with the consultants. The grant's technical advisors will be working to complete the needs assessment and set up a guide to move forward on activities.

Big Sky Finance

Following is our loan activity for the month:

SBA 504 Loans Approved 1 - \$620,000 EDA-RLF Loans Approved 1 - \$250,000

One SBA 504 loan was approved at SBA for a business located in Billings looking to expand and relocate. The EDA-RLF loan approved is to assist a new restaurant with tenant improvements in Billings. More information is to come on these projects once they have closed and funded. We closed on the SBA 504 loan for Sidney ACE Hardware in August for a September funding.

We continue to meet with prospective borrowers and have multiple loans in the underwriting stage. Our push over the next couple months is to market the EDA-RLF loan program to get the last of the approximate \$600k lent to businesses in Yellowstone County. Ideally, we will partner with a lender on

this financing to fill a borrower's financing gap, however, we are able to provide the financing ourselves if needed. Loans can be made up to \$250k.

The Big Sky Finance team attended and assisted with the Billings Navy Week hosted by our APEX team. Brandon attended the Member Investor lunch at 406 Windows sharing information on the SBA 504 loan program with those in attendance. 406 Windows is one of our SBA 504 clients.

The SBA 504 effective interest rates for the month of July remained constant from the prior month. These are competitive, below market rates that are fixed for the life of the SBA 504 loan.

- 25-year debenture = 6.55%
- 20-year debenture = 6.61%
- 10-year debenture = 7.08%

Organizational/Policy Matters

 Staffing Plans – We have now filled our Business Development Officer positions for Big Sky Finance—Tyler Wink. We have also filled our Marketing Manager position, Katleyn Harmon. We still have work to do to fill the Director of Rock31 and Rock31 Community Coordinator positions. Those searches will relaunch/launch soon. We have a second VBOC position to fill—VBOC project manager, and a BillingsWorks manager role to fill.

We have made progress, but plenty of work ahead.

RE: Recommendations for EDC Board Nominations/Elections

The joint EDA/EDC Nominating Committee met July 18 and again on August 16 to consider its recommendation to fill EDC Board positions, both vacant and expiring positions.

Here are the Recommendations of the Nominating Committee:

A. Vacant Board Positions

The EDC Board currently has two vacant Board seats, one previously held by NorthWestern Energy and one by the Billings Clinic. The Committee felt strongly that representation on the BSED Board by both NWE and Billings Clinic was important to the economic development work of our organization. Both companies were asked to submit names for consideration by the EDA/EDC Nominating Committee. With that input, the Committee hereby recommends the following:

- Molly Schwend (confirmed) to serve the unexpired term and a full (5-year term) on the EDC Board of Directors representing NorthWestern Energy.
- <u>Nichole Mehling</u> (confirmed) to serve the unexpired term and a full (5-year term) on the EDC Board of Directors representing **Billings Clinic**

B. Eligible for a Second Term

The following EDC Board members are eligible for serve a second term (3 years) on the EDC Board. With their consent, the Nominating Committee hereby recommends the following:

- <u>Ann Kosempa</u> nominated to serve a second term
- Dave Ballard nominated to serve a second term
- Spencer Fredrick nominated to serve a second term

C. Expiring Terms

Two EDC Board members' (Mike Nelson and Craig Bartholomew) second term on the Board expires December 31, 2023. EDC Board members are limited to serving two consecutive terms. These seats on the board will be open seats, the Nominating Committee hereby recommends the following:

- Judi Powers, whose term on the EDA Board expires December 31, 2023 (not allowing her to serve in the Immediate Past Chair role), is nominated to serve one three-year term on the EDC Board. EDA Board members are eligible to serve on the EDC Board, consecutive to their EDA Board serve, but only for one 3-year term. Having Judi serve on the EDC Board allows us to retain Judi's experience following her EDA Board Chairmanship.
- George Warmer, whose term on the EDA Board expires December 31, 2023, is hereby nominated to serve one 3-year term on the EDC Board. George's contributions and expertise on development/housing is critical to BSED strategic priorities related to downtown redevelopment.

D. Call for a Member Investors' EDC Board Election

The Nominating Committee respectfully asks the Executive Committee and the EDC Board refer these nominations to a vote of the EDC Members Investors, on or before September 21, 2023, with the results of this election to be announced at the October 11th Annual Meeting.

E. **EDA Board Openings**—There will be two open EDA Board seats that will be filled by application, interview, recommendation, and finally County Commissioner decision. This process will begin mid-October when the County issues a public notice.

Respectfully submitted,

EDA/EDC Nominating Committee
